## THE PLACE OF VOICES

LAUREN LYNCH

Anna is devastated by a fire that left her orphaned, dependent on an uncle she never knew existed and far from the only home she has ever known. Brendan struggles with a life limited by crippling illness and a family torn by the loss of his mother. Tzutz Nik faces an arranged marriage to the prince of a ruthless dynasty in order to unite their fractured kingdoms.

A mysterious invitation gives them each an opportunity to escape their struggles for a while—to view their lives from a new perspective. Thrust into a shared adventure that transcends their understanding of time, they are more lost than ever—but they are lost together. Their backgrounds and lives couldn't be more different—but their challenges give them a common bond.

Deep in a remote jungle, in long-forgotten ancient ruins, they discover the true meaning of sacrifice. In the shadows, an ancient evil presence lurks, threatening to lead them astray from every worthy purpose. As they each fight their personal battles, they are vulnerable. Learning to trust might be their only way out. Can their bond of friendship triumph over their adversary?

Anna and Brendan are reunited in Pompeii with the cryptic mission of helping a relative in need. Without any further details, they must search the doomed city, relying on their growing sense of awareness and guidance from Ben. As the two develop friendships along with their discernment skills, their viewpoints on whom they are to be helping differ. Meanwhile, their old nemesis—known as Basilius in Pompeii—seems to target anyone they show an interest in with his manipulative charm.

Will they fulfill their mission before time runs out for Pompeii?
